Guideline for Panellists

Welcome to CamTech's AI Seminar Series #1 on **"AI, Big Data, and Cyber Security for the Industry Revolution 4.0"** being held virtually on June 12, 2021. We thought it would be useful to provide a brief guideline on how we hope the panel and seminar discussion will work to assist the panellists in their preparation and participation. Our objective is to make the panel and seminar discussion as rich and interactive as possible. Therefore, the panellists will initially discuss on the topic and share their insight, and then we will open up the floor to audience participation. To make such discussion fruitful and run smoothly, we have made a few suggestions as follow:

- It is recommended to join the meeting at least 10 minutes before the seminar starts.
- At the beginning of each panel session, the moderator will briefly introduce the panel topic and panellists.
- The moderator will then pose a question to each group of panellists; each panellist will respond to the trigger question for 2 minutes.
- The audience will have a 15-minute plenary session before the conclusion of the seminar to ask questions to panellists. The questions will be posted in chat box and the moderator will ask a panellist to the respond to the questions.
- The webinar is held under the Chatham House Rule; participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.
