

AI Forum - CamTech Seminar AI Series 4

Embracing compassionate AI

And launching of the

“Center for Buddhist AI Ethics”

Tentative Date: 28th June 2023, 2pm - 3pm

Venue: 6Th Floor, CamTech University

Synopsis

In today's digital era, artificial intelligence (AI) presents itself as a powerful tool with both positive and negative implications. On one hand, AI streamlines tasks, offers personalized recommendations, and enhances decision-making. On the other hand, it can perpetuate bias, compromise privacy, and potentially replace jobs, impacting the economy. It is crucial to approach AI development with care, considering its potential consequences. That's why the upcoming **CamTech Seminar AI Series 4** will focus on "**Embracing compassionate AI**". Esteemed speakers will explore ethical AI usage, policy development, responsible AI development and deployment, and mindful education. Join us as we navigate the ethical dimensions of AI and strive for a compassionate and beneficial AI future.

Launching of the “Center for Buddhist AI Ethics”

Vision

AI development guided by Buddhist ethics for the well-being of the human kind.

Mission

1. Ethical AI Development
2. Mindful Education
3. Positive Impact Research
4. Policy Advocacy & Governance
